

2013 NATIONAL SHOW & SALE

IMPORTANT UPDATES & CHANGES

There are 150 hookups for campers at \$15 per night. Consignors may park near the buildings and hook into power in the barns if they are self contained at no charge.

The Center **will only allow shavings for bedding. They also require that we use their shavings which are \$10 per bale.** The pens will be 8' X 8'. One bale will be put in each pen at setup and **each consignor will be responsible for the intial cost of \$10 per pen.** Additional bales may be purchased from the center as desired throughout the week.

Hay will be available for purchase and can be used in the barn... given the drought in the west it is estimated that the price will be around \$12 per bale for high quality alfalfa.

The barn will NOT be available until noon on Monday. Those wishing to arrive prior to Monday will need to make arrangements with one of us [Tom, Richard, Jerrold or Ben] to house sheep until noon on Monday. We are happy to assist with this effort as needed.
