

## Software provision and support

---

A full list of technology manufacturers and service providers is on the Sheep CRC web site; <http://www.sheepcrc.org.au/>

- |  |   |
|--|---|
| Topstud<br>Phone: 03 5381 1866         | A practical, flexible and easy to use computer program providing the means for collecting flock data enabling informed decisions to be made.<br><br><a href="http://topstud.com.au">http://topstud.com.au</a>   |
| Woolpak<br>Phone: 02 6889 4040         | A computer program which aims to make the keeping of individual sheep records as easy (and flexible) as possible. Designed for ALL sheep recording - including Wool, Meat and Dual Purpose breeds. If you are breeding your own rams, or just want to keep track of a growing number of measurements, WoolPak is for you. Designed to be used in the yard or in the office.<br><br><a href="http://www.allstock.com.au">http://www.allstock.com.au</a>  |
| Macrostock<br>Phone: NZ +64 3 307 8053 | With MacroStock you can harness the power and maximise the true potential and features of revolutionary products such as Tru-Test Scales, Prattley Drafting Systems and EID tags. MacroStock integrates these proven systems resulting in the world's most powerful, real-time, comprehensive Livestock Management Hub.<br><br><a href="http://www.macrostock.com">http://www.macrostock.com</a>  |
| Stockbook<br>Phone: 02 672 6672        | Replacing the immensely popular Cattle Plus! (which was restricted to cattle), Stockbook now offers you comprehensive multi-species stock management system for Stud and Commercial operations. Fully NLIS compliant and designed to work with all electronic readers, scales and scanning devices on the market. Stockbook caters for all aspects of the industry including seedstock and commercial breeders, traders, finishers and feedlots.<br><br><a href="http://www.psystems.com.au/">http://www.psystems.com.au/</a> |
| Pedigree Wizard                        | Software that enables entry of data into SGA<br><br><a href="http://www.crt.net.au/~sfield/">http://www.crt.net.au/~sfield/</a>   |
