### **STORE FRONT OPTIONS**

\***Secured E-commerce Store Front** = \$150/page

\***Secured Paypal E-Commerce Store Front** = \$100/page

For E-Commerce Store Fronts - I prefer & highly recommend an account with www.Paypal.com. Opening a Paypal account is FREE (small fee applies if credit cards are used, but is cheaper than maintaining a Merchants account) & Secure. It also cuts your cost for opening and maintaining an E-commerce store, simply because it is much easier for me to design and set up. If you are interested in selling items on line, I highly recommend using www.Paypal.com.

**ADDITIONAL FEES:** All doc, pdf or text files to post on site must be sent camera ready. Any additional scanning, or editing of documents (any file type) which is in addition to what was received from site owner to webmaster is charged \$25-\$75 per document file to make the corrections. The webmaster reserves the right to accept or decline the files to be posted based on professional appearance of the file received, and reserves the right to charge the fee necessary to edit the files to make camera ready.

Any additional html web pages to the site throughout the contract are \$100.  
Additional secure pages or scripts are \$150 each.

All payments are due upon receipt of invoice, and must be made within 30 days to avoid cancellation of the website, whereas the following will occur.

\***Additional pages or scripts, scanning**, etc. that are added to a site that is not included in the package will be billed separately upon completion, or sent with the annual hosting fee, whichever is most appropriate. When the additional pages to a website increases the total pages to the next web package, the new annual hosting fee will be charged at the next annual billing date. The website anniversary date is established on the day a new site is approved and activated with the domain name.

### **WEB HOSTING**

**Question:** What about web space for my website?

**Answer:** Web space for your website is included in the packages offered above.

**Question:** What if I already have web space?

**Answer:** I charge an extra \$10/month fee for designing from another web host other than my own. Reason being, I have no idea who or how many people have access to your files. This has potential to lead to trouble. It is more economical & safer to use my web space provided with the package deals. While using my web host, only one person has access to the files, the web designer. Me! No one else! I do not design from any of the free web host. Reason being, I do not approve of the "free for all" unsupervised advertising that occurs from the free web space.

### **DOMAIN NAME REGISTRATION & TRANSFER**

**ALL PACKAGES INCLUDE ONE NEW DOMAIN NAME REGISTRATION, OR ONE DOMAIN**

**NAME TRANSFER, & EMAIL FORWARDING!** All websites that I design with a domain name must be either registered or transferred to my DNS server.

**Question:** How do I reserve my own domain name?

**Answer:** I can take care of that for you. The NEW domain name is registered under your name as the registrant, or the specified person. I act as the administrator, billing and technical consultant. The domain name is registered under my account, which allows me to therefore take care of all the DNS forwarding emails & URL's forwarding for you. Here again, the less people with access to the files and accounts, the better off we all are! Another advantage is, DNS servers are really not all that fun to figure out, if you are not familiar with them. Therefore, I offer a complete package, and a complete service. All packages include: Your own domain name registration, and DNS redirecting. By using Countrylovin.com as your web designer, web host & DNS management, it makes your life (and mine) so much simpler! All the packages above include either one domain name, or one transfer

**Question:** What if I already have my domain name registered?

**Answer:** That is fine. I will ask you for the information we need to release and transfer the domain name over to my DNS server. Any other fee unforeseen or additional transfer fees from another registrar or DNS server other than mine, is at your expense. If a domain name is transferred from another DNS server to my server, the registrant will be the person that gives me the final approval to transfer the domain name. I act as the administrator, billing and technical consultant for the domain name. To transfer a domain name out of my DNS server, there will be a \$75 fee for the domain name transfer. All the packages above include either one domain name, or one transfer.

**Question:** What if I want more than one domain name directing to my website?

**Answer:** That is fine, however for each additional domain name a \$25/year fee applies for each domain name. You can link as many additional domain names to your site as you want, but they each cost \$25 a year.

## **PAYMENTS & FAQ**

**Question:** What about payment and my anniversary date?

**Answer:** The Website Design Fee and the Annual Hosting Fee is due upon the completion, and your acceptance of the website. The Website Design Fee is a one-time fee. The Annual Hosting Fee is due each year on your website anniversary date. The anniversary date will be the date your website is up and running. Each year on the anniversary date, the annual hosting fee will be due. A bill will be sent via USPS.

Your registered domain name will also have an Annual Renewal Date. An email notification will be sent to you asking if you want to renew or cancel the domain name, at which time you can decide if you want to continue with your website another year or terminate your site. The renewal fee for your domain name is included in your annual website design fee.

If bills remain unpaid for 30 days after the Annual Hosting Fee is sent, your website will be terminated. If a website has been terminated, and you wish to reactivate it, there will be a reactivation fee of \$75 up through a 60 day period, at that time the fee for a new design and hosting fee applies.

**Note\*-** Prices are subject to change without notice. Personal checks, money orders, or Paypal (credit cards or Paypal transfers) are accepted.

**Question:** Can I preview my website?

**Answer:** You can preview your website at a private URL before it is posted on the web for public viewing. Your approval must be made along with any changes made before it is considered up and running and viewable to the public.

**Question:** Am I under any contract?

**Answer:** Yes, there is a one year contract/memorandum of understanding to sign before the actual website is placed on the internet for public viewing. This contract specifies some details of the website and the rights that you have as the owner and that I have as the designer. Your registered domain name is under a one-year contract with my DNS server, and is placed in my DNS account. After the 12 months is expired, the domain name is up for renewal. I will contact you via email to get your decision to either renew your domain name and website, or discontinue the website.

**Question:** How long will it take to design my website?

**Answer:** That all depends on how long it takes to get the information you want posted on the website in my hands, and the package size that you choose. Once the information is received, under normal circumstances .....about 2 weeks.
